Lifted by Design.

A photograph of four people (three women and one man) in a modern office setting, gathered around a table and looking at a tablet or document. The man is in the center, wearing a dark blazer over a yellow shirt. The woman on the left is wearing a light green sleeveless top. The woman on the right is wearing a white and grey patterned shirt. The woman in the foreground is wearing a red top and glasses. They are all looking down at a tablet or document on the table. The background shows large windows with a view of a modern building and greenery.

Built for Performance. Designed for Space.

Our elevators are designed to be more than a means of vertical movement - they are architectural and aesthetic elements that elevate every space. With precision, style, and attention to detail, we've created an environment you can both see and feel.

Contemporary Designs. Timeless Elegance.

The new design collection offers a wide range of styles, materials, and atmospheres, from minimalist and technological to warm and luxurious. Every detail is the result of thoughtful design - perfection in both form and function.

Comfort You Feel. Quality That Lasts.

Whether you prefer a robust, functional interior or a sophisticated, premium look, every element speaks the language of innovation and refinement. Our countless combination possibilities allow you to personalize your elevator design to perfectly match your taste and needs.

Unlock More Value from Every Square Meter

Our elevators combine precision engineering and premium materials to deliver exceptional performance and lasting reliability. Each design is crafted with meticulous attention to detail, ensuring smooth operation, safety, and comfort for every user.

By integrating smart technology and durable components, we provide elevators that enhance both functionality and aesthetics.

All this excellence comes at accessible and competitive prices, offering outstanding value for every project.

The Lift

Boost Construction Efficiency and Speed Up Project Delivery

Our enhanced construction-time solutions and optimized processes help you maximize productivity and shorten project timelines - often by weeks or even months.

We ensure that people and materials move seamlessly on - site, making your construction phase faster, safer, and more efficient from start to finish.

experience

Stand Out with a Next-Generation User Experience

Transform the way tenants and visitors experience your elevators.

Bring your vision to life with our new cabin interiors, featuring high-quality, durable materials, sophisticated lighting options, and cutting-edge infotainment solutions.

Our modular signalization systems and thoughtful design details create an experience that is not only functional, but truly inspiring.

redefined

Your Partner in Smart and Sustainable Building Design

Make the right choices from the start and plan your elevator to perfection with our next-generation digital planning tools.

Benefit from expert guidance, eco-efficient materials, and innovative technologies that support your goals for green building certification and full compliance with safety standards.

Together, we create buildings that are intelligent, sustainable, and built for the future.

LUNAR - SERENITY IN MOTION

AURORA - THE ART OF MOTION

ORION - STRENGTH IN DESIGN

ATLAS - THE STRENGTH AND RELIABILITY

VEGA - PRECISION PERFECTED

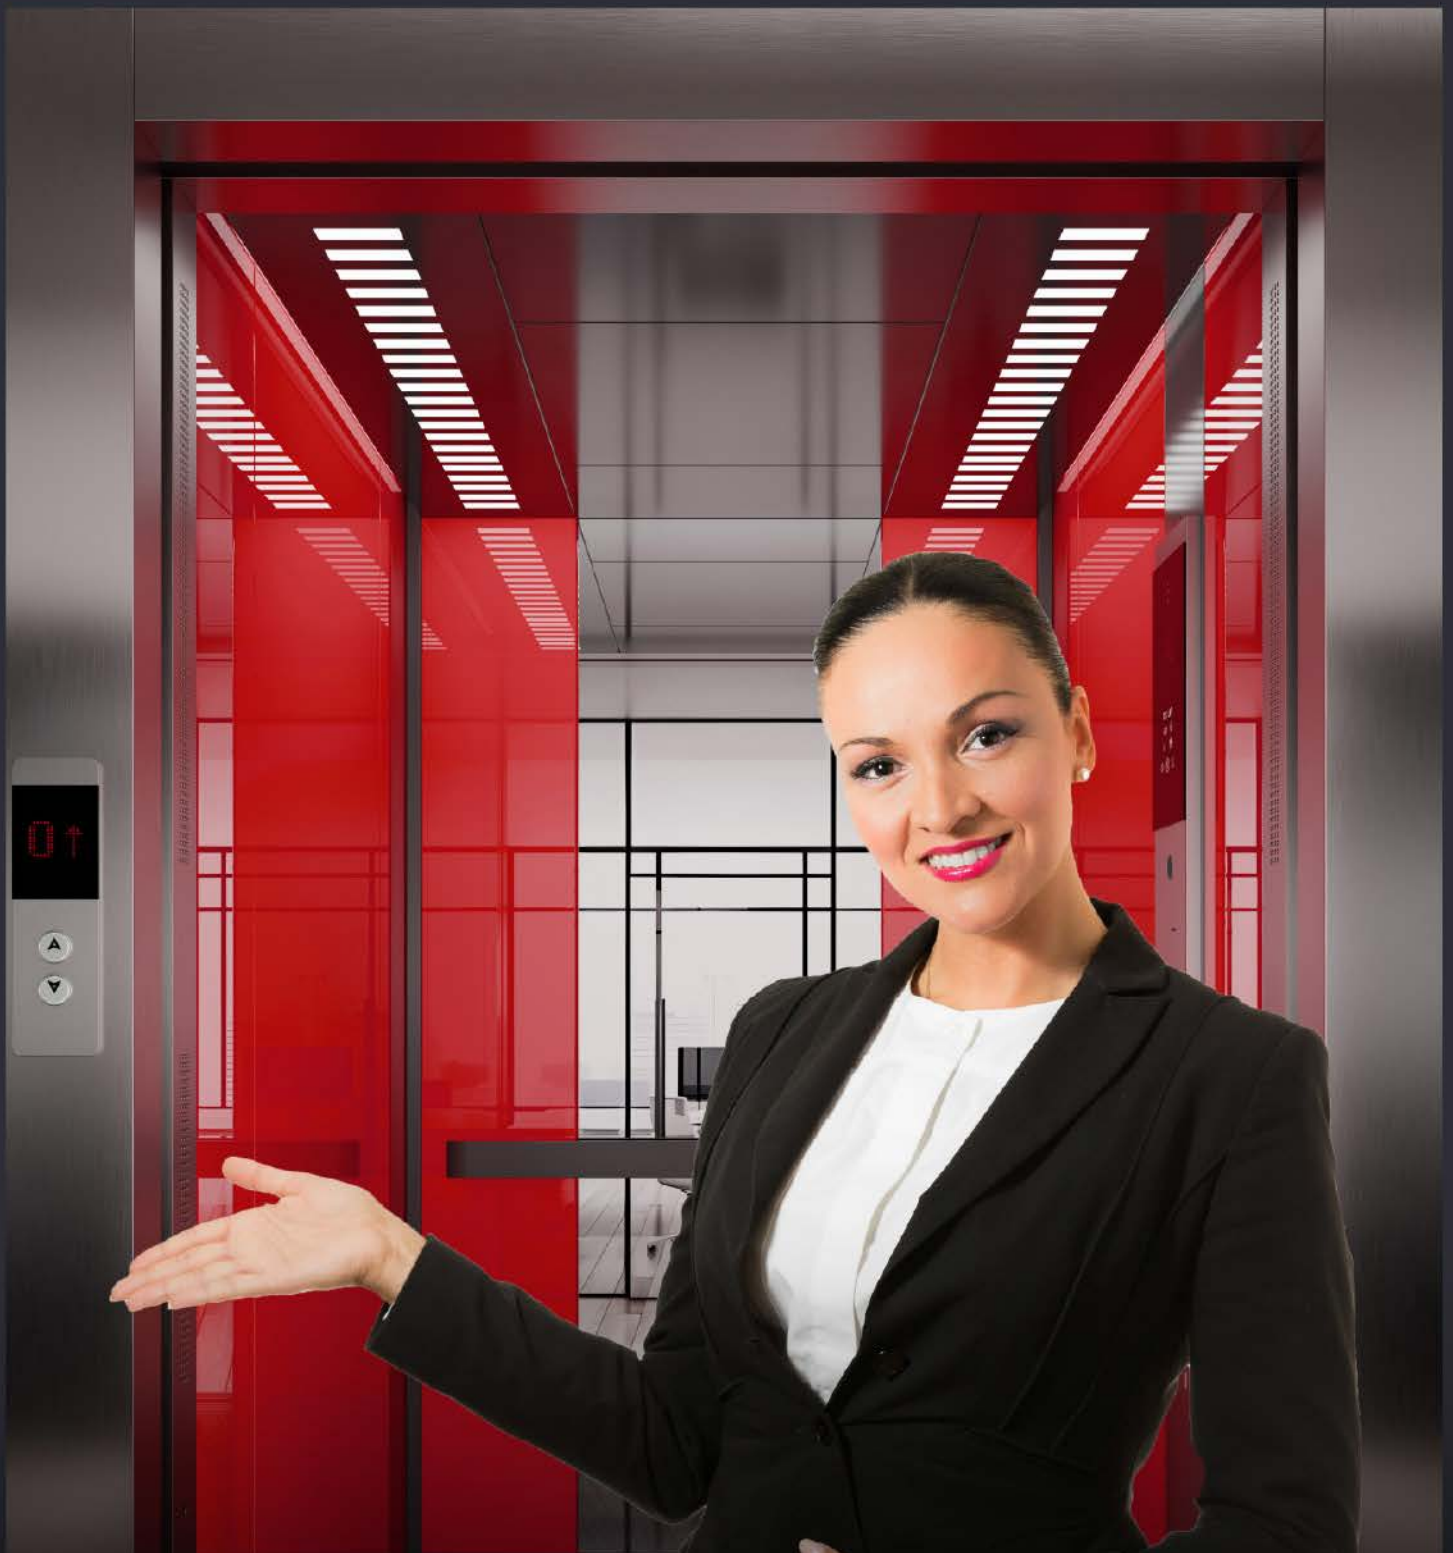

CELESTE - GRACE ABOVE ALL

SOLARIS - BRILLIANCE AT EVERY LEVEL

LUNAR

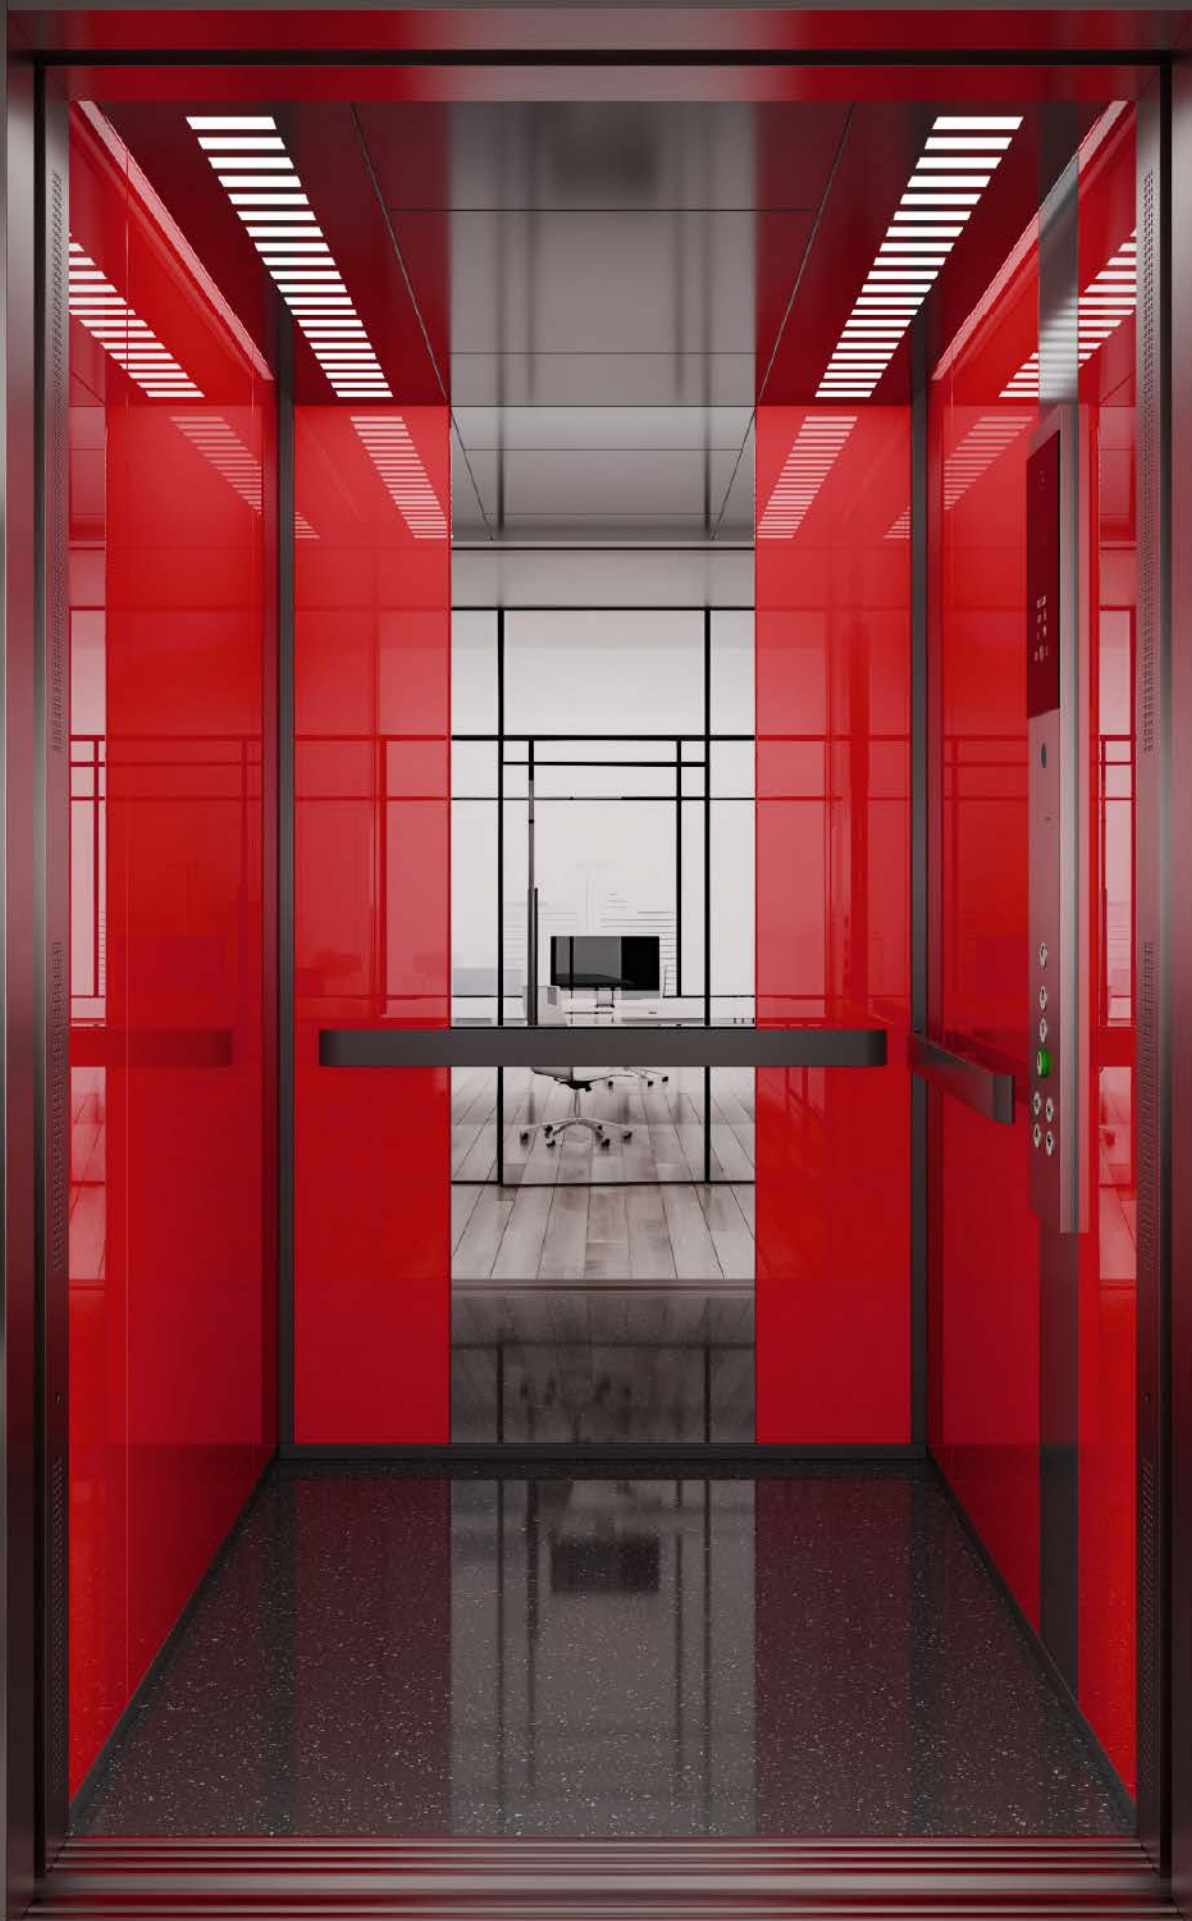

Serenity in Motion

Inspired by the calm elegance of the moon, LUNAR embodies purity, balance, and quiet sophistication.

Soft lighting, smooth textures, and refined materials create an atmosphere of peaceful elevation.

Perfect for residential and hospitality spaces where comfort meets timeless design.

DETAILS:

Rear wall: Painted stainless steel, full length narrow mirror

Side walls: Painted stainless steel/painted glass

Ceiling: Black painted stainless steel, laser cut, LED lighting

Floor: granite/marble / painted glass

Handrails: flat type, painted stainless steel

COP: painted stainless steel

COLORS:

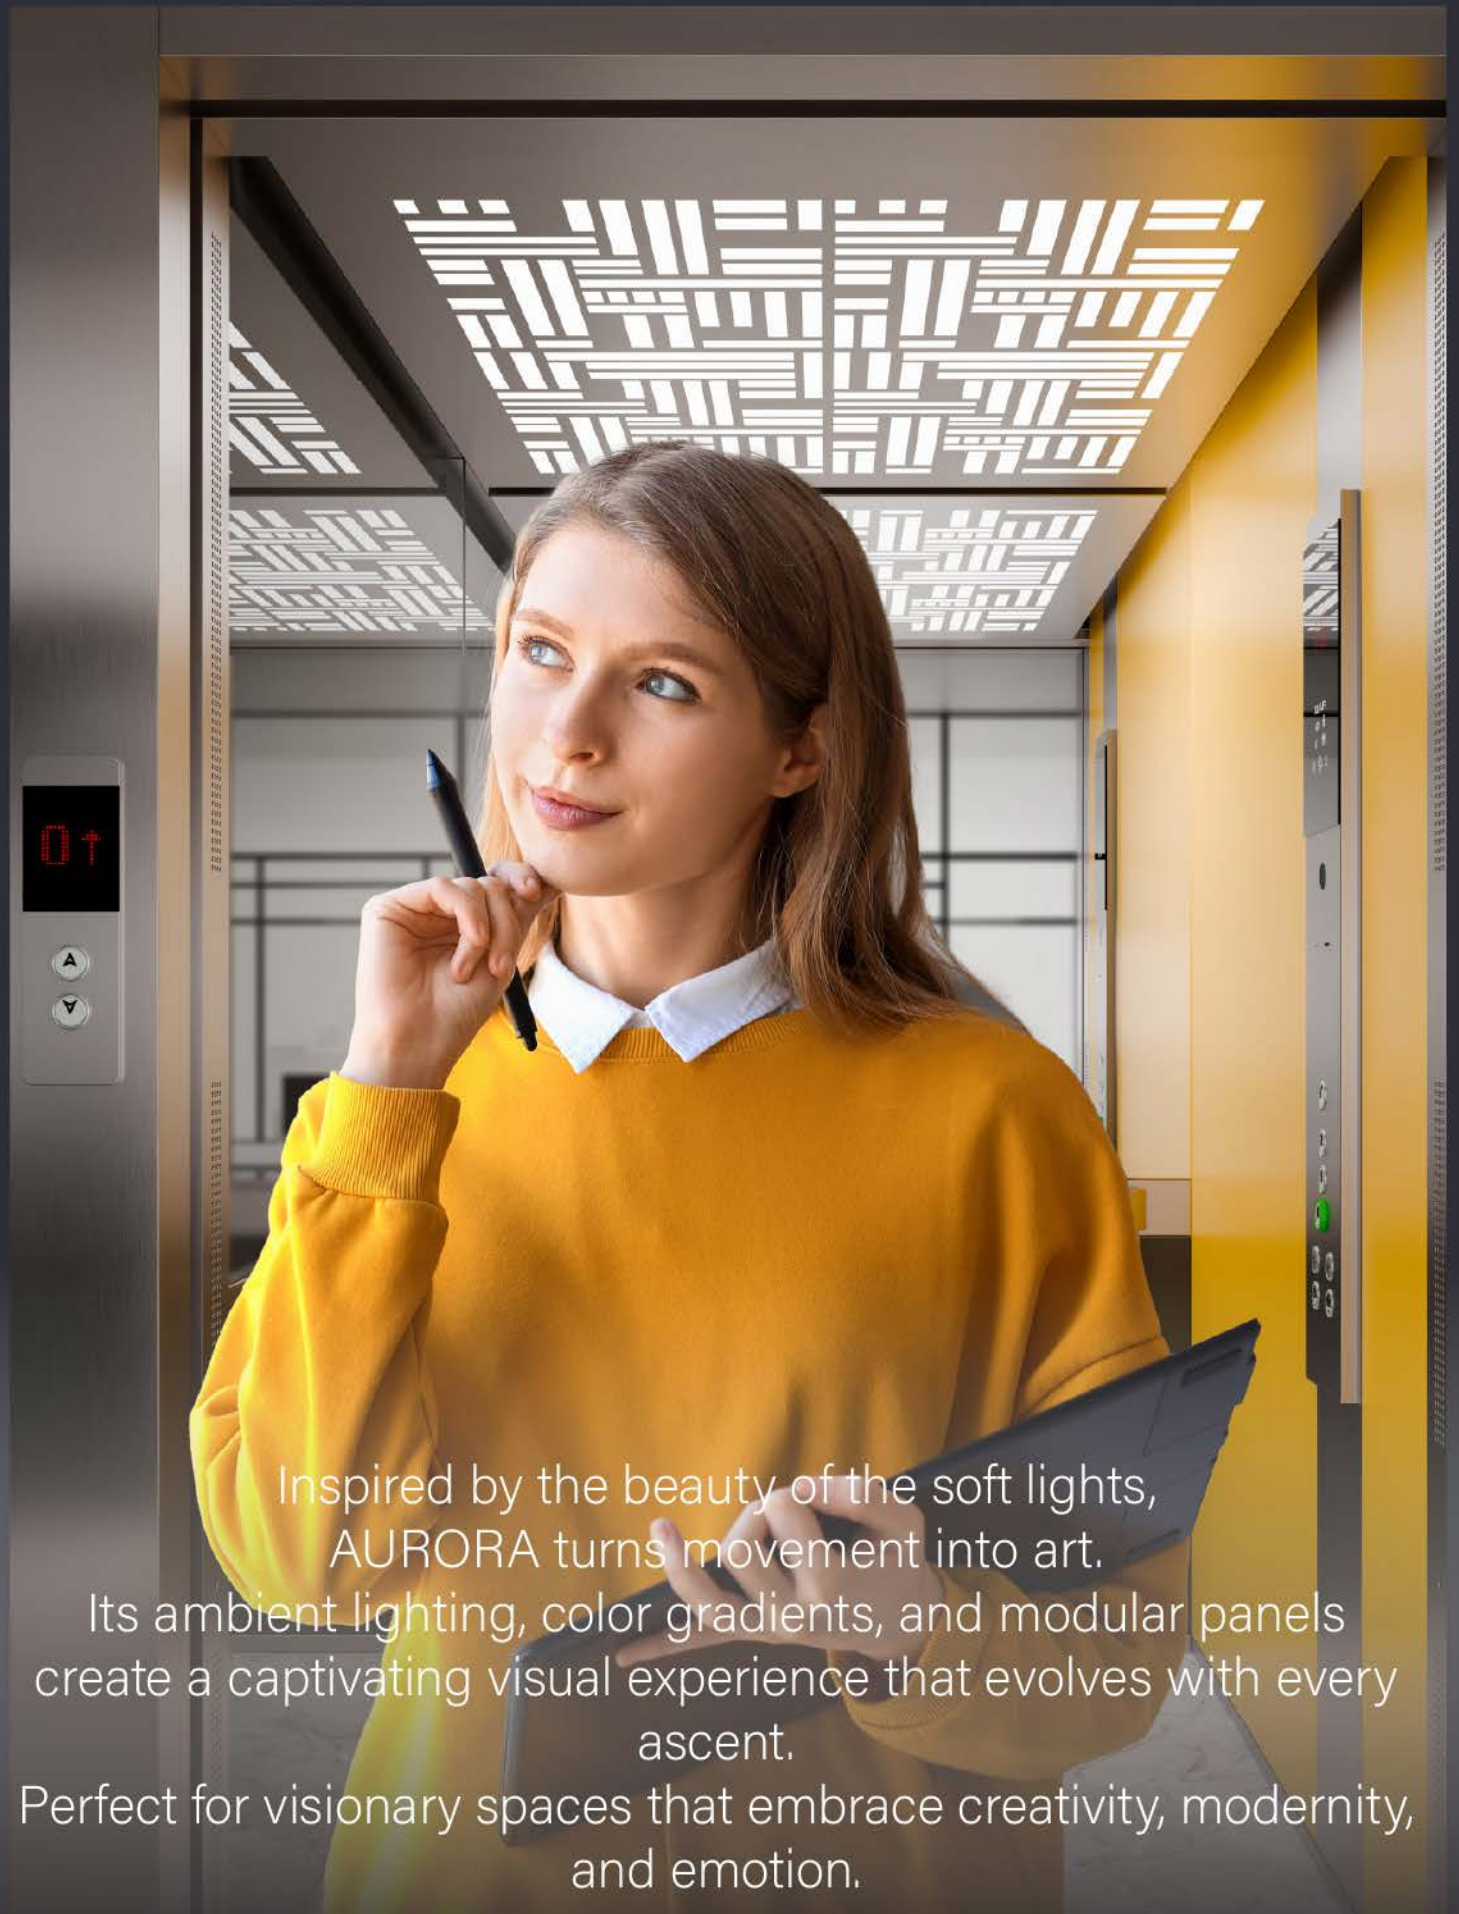

Main color: Luminous grey

Alternative colors:

AURORA

The Art of Motion

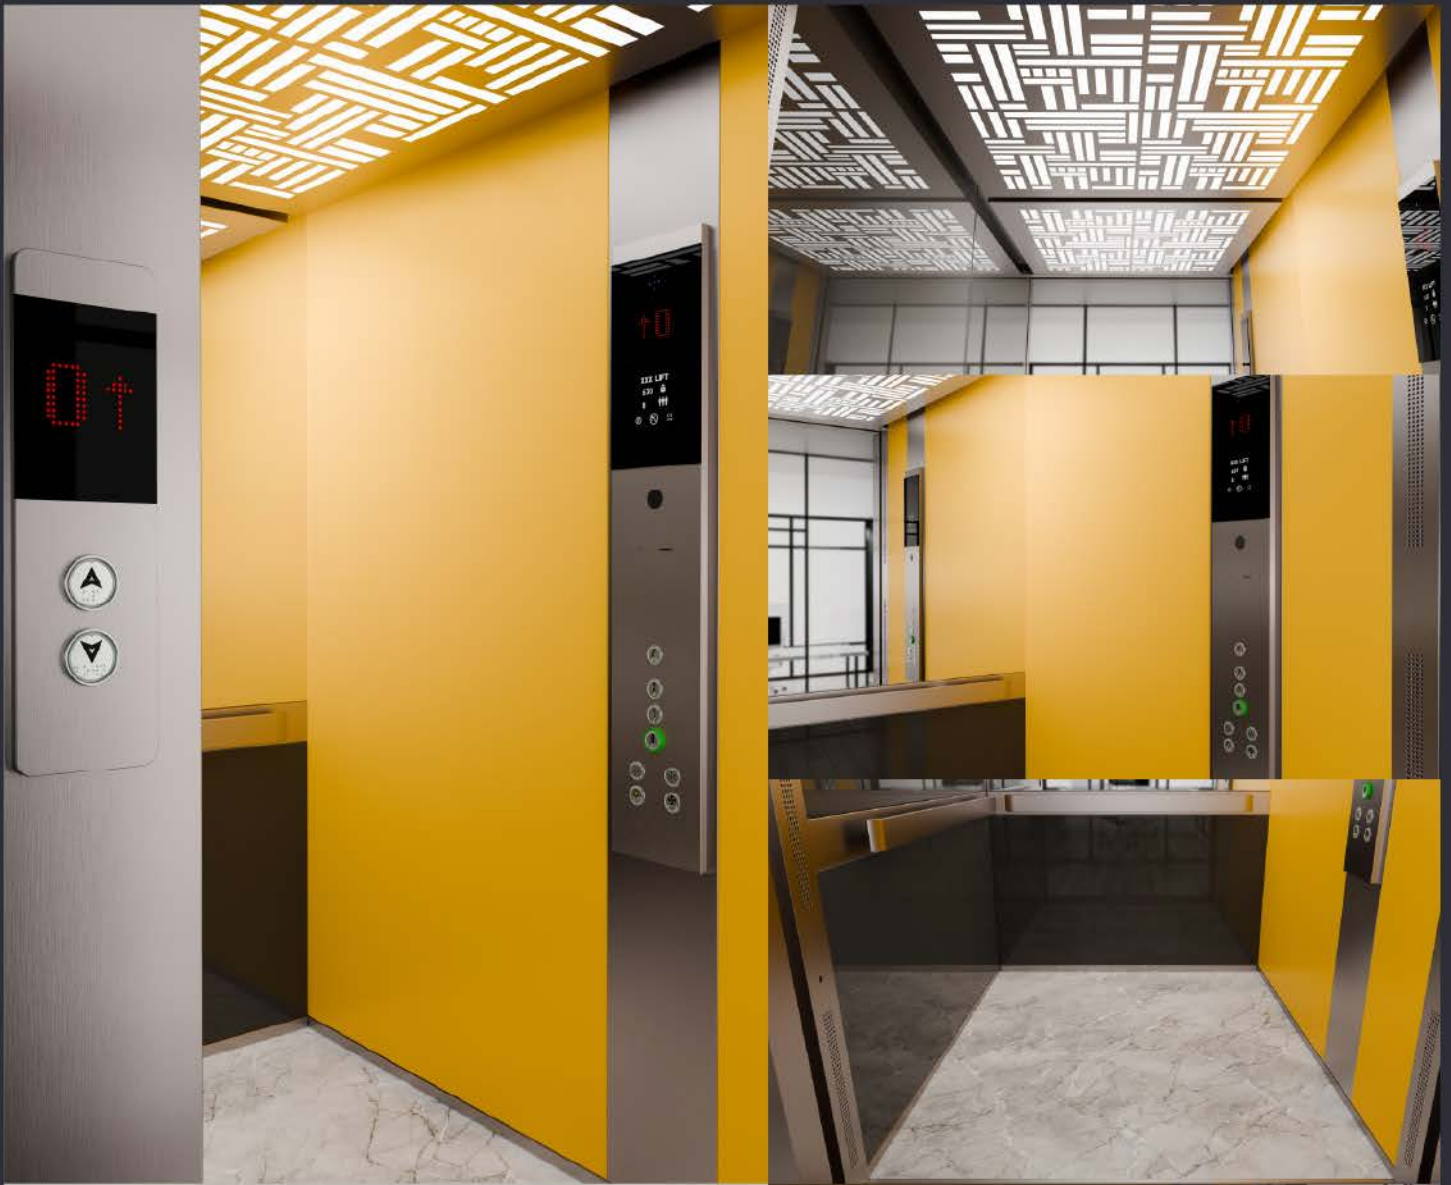

Inspired by the beauty of the soft lights,
AURORA turns movement into art.

Its ambient lighting, color gradients, and modular panels
create a captivating visual experience that evolves with every
ascent.

Perfect for visionary spaces that embrace creativity, modernity,
and emotion.

DETAILS:

Rear wall: Painted steel/painted glass, gloss finish, full size half length mirror

Left wall: Painted steel/painted glass, gloss finish

Right Wall: Painted steel/painted glass/painted laminated plate, matte finish

Ceiling: Laser cut, LED lighting

Floor: granite/marble / painted glass

Handrails: flat type, stainless steel

COP: stainless steel

COLORS:

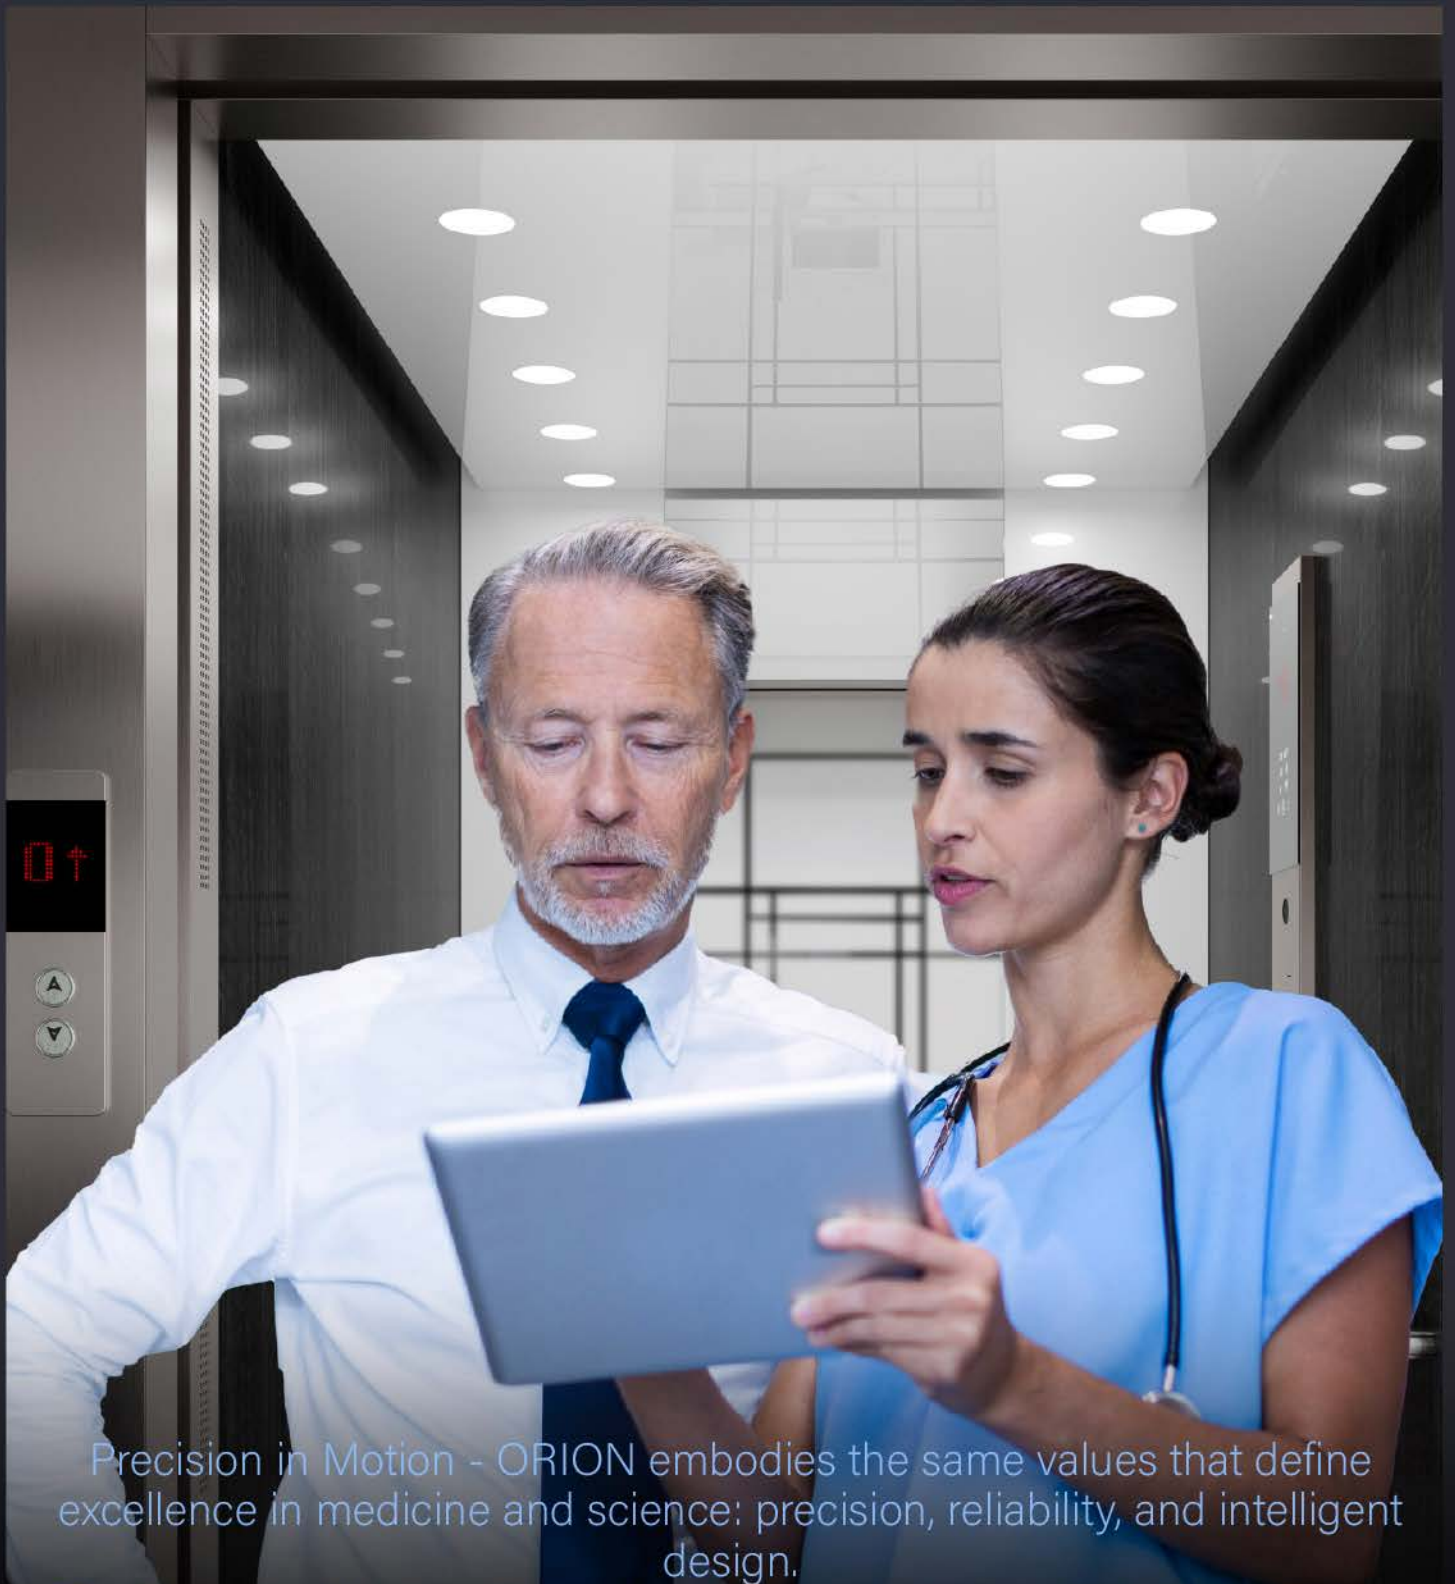

Main color: Sulfur Yellow, black, stainless steel

Alternative colors:

ORION

Precision in Motion

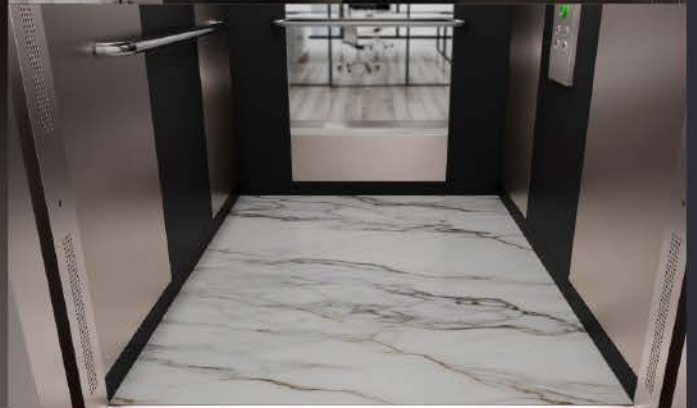

Precision in Motion - ORION embodies the same values that define excellence in medicine and science: precision, reliability, and intelligent design.

Engineered with clean lines, advanced materials, and adaptive lighting, ORION creates a calm, efficient, and hygienic environment - ideal for hospitals, laboratories, and research centers where every detail matters.

It's more than an elevator - it's a reflection of trust, care, and technological sophistication.

DETAILS:

Rear wall: Painted steel, full length mirror

Side walls: stainless steel/painted or decorative stainless steel

Ceiling: Painted/decorative stainless steel with integrated LED or spot lighting

Floor: granite/marble

Handrails: pipe type, stainless steel

COP: stainless steel

ATLAS

The Strength and reliability

Named after the Titan who held up the heavens, ATLAS symbolizes strength, endurance, and reliability. Built for demanding environments, it combines powerful performance with bold design presence.

DETAILS:

Rear wall: Brushed stainless steel, full length framed mirror

Side walls: Brushed stainless steel

Ceiling: Laser cut, LED lighting

Floor: granite/marble

Handrails: pipe type, stainless steel

COP: brushed stainless steel

COLORS:

Main color:

VEGA

Precision Perfected

As one of the brightest stars in the sky, VEGA symbolizes clarity, precision, and innovation. Every detail — from the seamless finishes to the intelligent control interface — reflects engineering excellence and luxury craftsmanship. An exceptional choice for those who expect nothing less than perfection.

DETAILS:

Rear wall: Painted steel, full length mirror

Side walls: laminated panel

Ceiling: Painted steel with integrated LED or spot lighting

Floor: granite/marble, with hidden lighting

Handrails: pipe type, stainless steel

COP: stainless steel

Main color: Gold, rose beige

Always Available. Always Professional.

Reliability That Lasts Over Time

With regular and professional maintenance, you extend the lifespan of your elevator and ensure safe and flawless operation every day.

Our team of certified technicians is trained to detect, prevent, and resolve any technical issue - quickly, efficiently, and with minimal downtime.

Our Services Include:

Regular inspections and maintenance - according to the highest European standards

Diagnostics and technical analysis using advanced tools

Replacement of parts with genuine components

24/7 emergency support – always available when you need it

Performance reports and recommendations to improve efficiency and energy use

Your Elevator - Our Responsibility

User safety and system reliability are at the core of what we do.

We offer long-term service contracts tailored to your needs - whether for residential buildings, commercial spaces, or public facilities.

The background of the advertisement features a modern interior space. On the left, there is a dark, possibly black, door or partition with a vertical metallic handle. The walls are covered in a dark, textured material, possibly stone or concrete, with some areas illuminated by warm, golden light, creating a dramatic effect. The floor appears to be made of light-colored wood or stone.
